At ₹9.14 lakh cr, fiscal deficit for April-Dec at 56.7% of BE

FALLING SHORT. Capex spend likely to miss FY25 target, despite big push in Dec 2024

KR Srivats
New Delhi

The Centre's fiscal deficit for the April-December 2024 period came in at ₹9.14 lakh crore, which was 56.7 per cent of the Budget estimate (BE) level of ₹16.13 lakh crore, official data showed.

For the same period last financial year, the fiscal deficit was at ₹9.8 lakh crore, or 55 per cent of BE, according to data with the Controller General of Accounts (CGA).

Capital expenditure for the said period stood at ₹6.85 lakh crore, which is 61.7 per cent of the BE of ₹11.11 lakh crore for 2024-25.

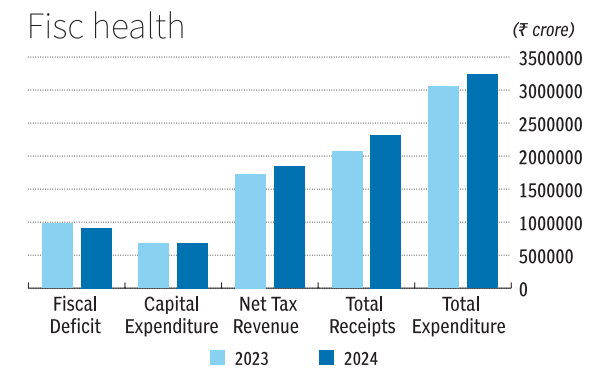

Capex outlay for the year-ago period was 67.3 per cent of the Budget estimate.

In the April-December period of FY25, the Centre's net tax revenues rose by 6.5 per cent year-on-year (dampened by the additional devolution of taxes to the States) to ₹18.43 lakh crore.

Non-tax revenues expanded by 43 per cent, boosted by the RBI dividend. Revenue expenditure grew 7 per cent while capex rose by a relatively muted 1.7 per cent.

I-T COLLECTIONS UP

Gross tax collections rose by 11 per cent on a year-on-year

Gross tax collections rose by 11% on a y-o-y basis in 9MFY25, aided by elevated growth in income tax collections. While corporate tax mop up has been tepid, rising by just 3%, I-T collections expanded 22%

basis in 9MFY25, aided by elevated growth in income tax collections.

While corporate tax collections have been tepid, rising by just 3 per cent y-o-y

in April-December FY2025, income tax collections have expanded by 22 per cent during this period.

ICRA's Chief Economist and Head — Research & Outreach Aditi Nayar believes that personal income tax collections may surpass the FY25 Budget estimate of ₹11.5 lakh crore, unless large refunds are released in the latter part of the fiscal, while corporation tax inflows may print in line or slightly lower than the target.

Revenue expenditure rose by a mild 1.6 per cent y-o-y in the month of December 2024 whereas capital expenditure surged by 95 per cent in the month, which would augur well for economic activity.

Nayar said that the Centre's capex still needs to

expand by a sharp 55 per cent y-o-y in January-March 2025 or record a monthly run rate of ₹1.4 lakh crore to meet the FY25 Budget estimate, which appears challenging.

TOUGH TARGET

"We are apprehensive that the capex target of ₹11.1 lakh crore for this financial year will be missed by a margin of ₹0.8-1 lakh crore, although this is higher than ICRA's earlier estimate of a ₹1.4 lakh crore miss, owing to the unexpectedly robust spike in December 2024," Nayar added.

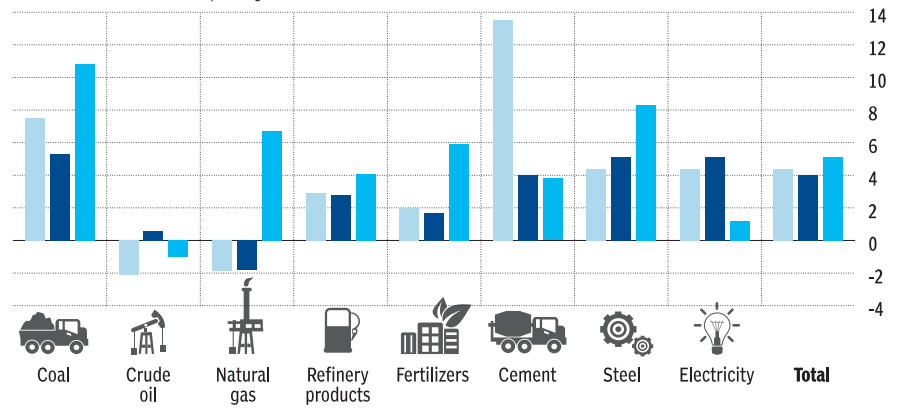

"Nevertheless, the anticipated miss in the capex target is expected to offset any shortfall on account of disinvestment and taxes, as well as the impact of the recent supplementary demand for grants."

"Accordingly, ICRA expects the fiscal deficit to mildly trail the FY25 BE of ₹16.1 lakh crore or 4.9 per cent of the GDP," Nayar said.

Reacting to the latest fiscal deficit numbers, Madan Sabnavis, Chief Economist, Bank of Baroda, said that he expects the fiscal deficit for the current fiscal year to come in at a lower 4.8 per cent of GDP as compared to 4.9 per cent pegged at the Budget estimate level.

Core sector growth slows to 4% in Dec, but still in expansion mode

Volatile infra play

KR Srivats
New Delhi

The eight core industries' output growth moderated to 4 per cent in December 2024, lower than the 5.1 per cent growth recorded in the same month the previous year.

The latest reading was also lower than the upward revised November 2024 output growth rate of 4.4 per cent (it was 4.3 per cent earlier), according to data released by the Commerce and Industry Ministry on Friday.

Except for natural gas, which contracted by 1.8 per cent, other industries recorded positive growth.

For the April-December 2024 period, the core industries grew 4.2 per cent (8.3 per cent in year-ago period).

The eight core industries — coal, natural gas, crude oil,

refinery products, fertilizers, cement, steel and electricity — comprise 40.27 per cent of the weight of items included in the Index of Industrial Production (IIP).

The sectors that showed positive growth in December 2024 are coal (5.3 per cent), refinery products (2.8 per cent), crude oil (0.6 per cent) fertilizers (1.7 per cent), cement (4 per cent), steel (5.1 per cent) and electricity (5.1 per cent).

POWERING THROUGH

Paras Jasrai, Senior Analyst and Economist, India Ratings (Ind Ra), said growth in core sector output was led by coal, steel and electricity segments, each of which registered over 5 per cent growth.

"Electricity output growth stood at a five-month high of 5.1 per cent y-o-y, supported by onset of winter

in the northern region lifting power demand," Jasrai added. The Centre has now revised the core industries growth for September 2024 to 2.4 per cent.

Aditi Nayar, Chief Economist and Head — Research & Outreach, ICRA, said the core sector growth eased slightly to 4 per cent in December 2024 from the revised 4.4 per cent in November 2024, with four sectors witnessing a deterioration in their performance in the interim months.

"ICRA expects IIP growth to moderate to 3-5 per cent in December 2024 from 5.2 per cent in November, partly on account of an unfavourable base," Nayar added.

Madan Sabnavis, Chief Economist, Bank of Baroda, said moderation in December is due to lower growth in 5 out of 8 segments.

RBI's \$5-bn dollar/rupee buy-sell swap auction oversubscribed 5 times

Our Bureau
Mumbai

The Reserve Bank of India (RBI) received a robust response to the \$5 billion dollar/rupee buy/sell swap auction of six months' tenor it conducted on Friday. The auction was oversubscribed five times.

The swap auction is part of the Central bank's latest measures to inject rupee liquidity aggregating about ₹1.5 lakh crore into the banking system. The RBI received bids from 253 participants aggregating \$25.59 billion against the notified amount of \$5 billion. It accepted bids aggregating \$5.1 billion at a weighted average premium of 97.72 paise.

In the first leg of the swap transaction, banks sold dollars to the RBI, which will credit rupee funds to the successful bidders' current accounts. In the reverse leg of the swap transaction, rupee funds will be returned to RBI

along with the swap premium to get back dollars after six months.

DEPRECIATION SCARE

Harsimran Sahni, EVP, Head Treasury, Anand Rathi Global Finance, noted that since the market was already in deficit mode, it was expecting some action on rupee liquidity via OMO (open market operation) purchases of government securities or dollar/rupee swap.

"When liquidity injection measures were announced, the market was positioned accordingly or it was discounted. Not much impact

was seen on the dollar/rupee... If RBI continues with longer-term swap, then rupee will gradually depreciate," he said.

Sahni said liquidity infusion will ease short-term liquidity challenges in the banking system, leading to lower short-term interest rates. This may bring down short-term government bond yields. The impact on longer-term papers may be limited unless the RBI signals further liquidity measures or cuts the repo rate.

Amit Pabari, MD, CR Forex Advisors, said under the swap auction, the Central bank purchased spot dollars while simultaneously selling dollars in the forwards, neutralising the impact on the dollar/rupee pair.

"Increased government spending could increase rupee supply, leading to depreciation. Conversely, strategic investments and policy reforms might attract FII inflows, lending support to the currency," he said.

Marico's Q3 net up 4.17% amid rising input costs

Aroosa Ahmed
Mumbai

Impacted by a rise in input prices, FMCG maker Marico Ltd posted a 4.17 per cent increase in consolidated net profit at ₹399 crore with revenue growth of 15.35 per cent in the third quarter.

Domestic revenue was up 17 per cent at ₹2,101 crore, led by price hikes due to high input prices. The company said its India business delivered the strongest growth in 13 quarters. Urban demand remained stable while rural demand saw twice the growth as urban demand on-year basis. Marico reported a 3-per-cent volume growth in the domestic business while the international business saw a 9 per cent constant currency growth. Parachute Rigid saw a 3 per cent volume decline. Value-added hair oil declined 2 per cent in value terms while Saffola Edible Oils registered a low-single-digit volume growth amidst a sharp increase in ve-

getable oil prices. The food segment saw a 31 per cent value growth year-on-year, nearing ₹1,000 crore ARR. Marico said its food and premium personal care revenue share stood at 21 per cent. "The core domestic portfolios have held firm amidst inflationary conditions and witnessed market share and penetration gains. While the rise in input costs will have some transient impact on margins in the near term, we remain biased towards driving top quartile volume growth and double-digit revenue growth in the near term," said MD & CEO Saugata Gupta.
